Station 3 – 4400 Rosenwinkle Street, Yorkville, IL 60560

Dear Dennis:

We have not had the opportunity to express our gratitude for a job well done, twice. We're impressed with the professionalism extended throughout the entire construction process exemplified by your industry knowledge. MIC along with the successful bid subcontractors and trades, were qualified, easy to communicate with and, most importantly, accommodated the sometimes demanding construction schedule.

We appreciate the personal attention that was given to our projects. Both projects were bid within the architect's estimated budget, were kept on schedule and came in under budget. Your staff diligently worked hard to answer questions and tended to problems before they occurred.

It was a refreshing and pleasant experience to work with MIC, and we look forward to the possibility of working with you again as Construction Manager for future projects. Should MIC require our recommendation for future projects, please feel free to contact us.

Sincerely,

Chief Michael Hitzemann
Bristol Kendall Fire Protection District
